## Description

AMP NETCONNECT Universal Office Boxes provide a flexible 2-, 4- or 6-port surface mount outlet. They accept 110Connect and SL Series Modular Jacks and specially designed inserts. They are available in a variety of colors including almond, black, white, gray and electrical ivory. Universal Office Boxes are compatible with surface raceway systems and modular furniture raceways. The 2-port Universal Office Box can be mounted with double-sided foam tape or screws. The 4- and 6-port Universal Office Boxes can be mounted with double-sided foam tape, screws or magnets (purchased separately, for use only with 4- or 6-port Universal Office Boxes). AMP NETCONNECT Universal Office Boxes can be both labeled and iconified for easy port identification. Universal Office Boxes are provided with a die-cut card stock label and clear label cover, a color matched icon wheel, squares of double-sided foam tape, self-tapping screws, and color matched blank inserts.

AMP NETCONNECT Universal Office Box Inserts are available in blank, ST-Style, and F-Connector versions. The ST-Style Insert is suitable for use with Multimode connectors.

Surface Mount Magnets for use with 4- and 6-port Universal Office Boxes allow for flexibility of placement during and after installation. These high quality ferrite magnets hold offices boxes tight to metal office furniture to avoid the need for drilling or punching holes. This allows the Universal Office Box to be moved or adjusted without the need to re-drill and re-punch holes in the event a piece of furniture gets moved or replaced as well as protecting connections from damage if cables become snagged or stressed.

## Specification (text in brackets [ ] requires a choice)

Work area outlets shall be configured using [2-port, 4-port, or 6-port] office boxes. Each port shall be provided with an icon to indicate its function. ## Technical Details

### Materials

2-, 4- and 6-Port Universal Office Boxes

Office Box –	ABS molding compound (see part number table for colors)
Icon Wheel (p/n: 1375092) –	ABS molding compound (see part number table for colors)
Label Cover –	Polycarbonate molding compound, clear
Die-Cut Label –	Paper, card stock
Self-tapping Screws –	Zinc plated carbon steel, 6-20
Double-sided Foam Tape –	Foam tape strip, 1" x 1"

Blank Insert

Insert – ABS molding compound (see part number table for colors)

ST-Style Insert

Insert – ABS molding compound (see part number table for colors)  
Connector Coupler – Nickel plated zinc

F-Connector Insert

Insert – ABS molding compound (see part number table for colors)  
Connector Coupler – Nickel plated zinc

Surface Mount Magnet\*

Magnet – Ferrite Magnet  
Magnet Housing – Steel  
Double-sided Foam Tape – Foam tape strip

### Packaging (included items)

	Self-tapping Screws	Double-sided Foam Tape Squares	Blank Insert	Label Cover	Die-cut Label
Universal Office Box, 2-Port	2	2	1	1	1
Universal Office Box, 4-Port	2	2	2	1	1
Universal Office Box, 6-Port	2	2	2	1	1

Instruction Sheet – 408-3339

\*Note: Surface Mount Magnets are not for use with 2-Port Universal Office Box.
